# OQSIE TECHNOLOGY SOLUTIONS

*Leveraging artificial and business intelligence to enable **culture change** and drive **performance** and **productivity improvements**.*

## WHAT WE DO

*We use real-time predictive analytics to:*

- Help you keep your finger on the pulse of what's happening with actionable information
- Send alerts (text or email) when something significant is predicted to occur
- Enable a supportive and collaborative culture
- Seamlessly align operational priorities across functional groups
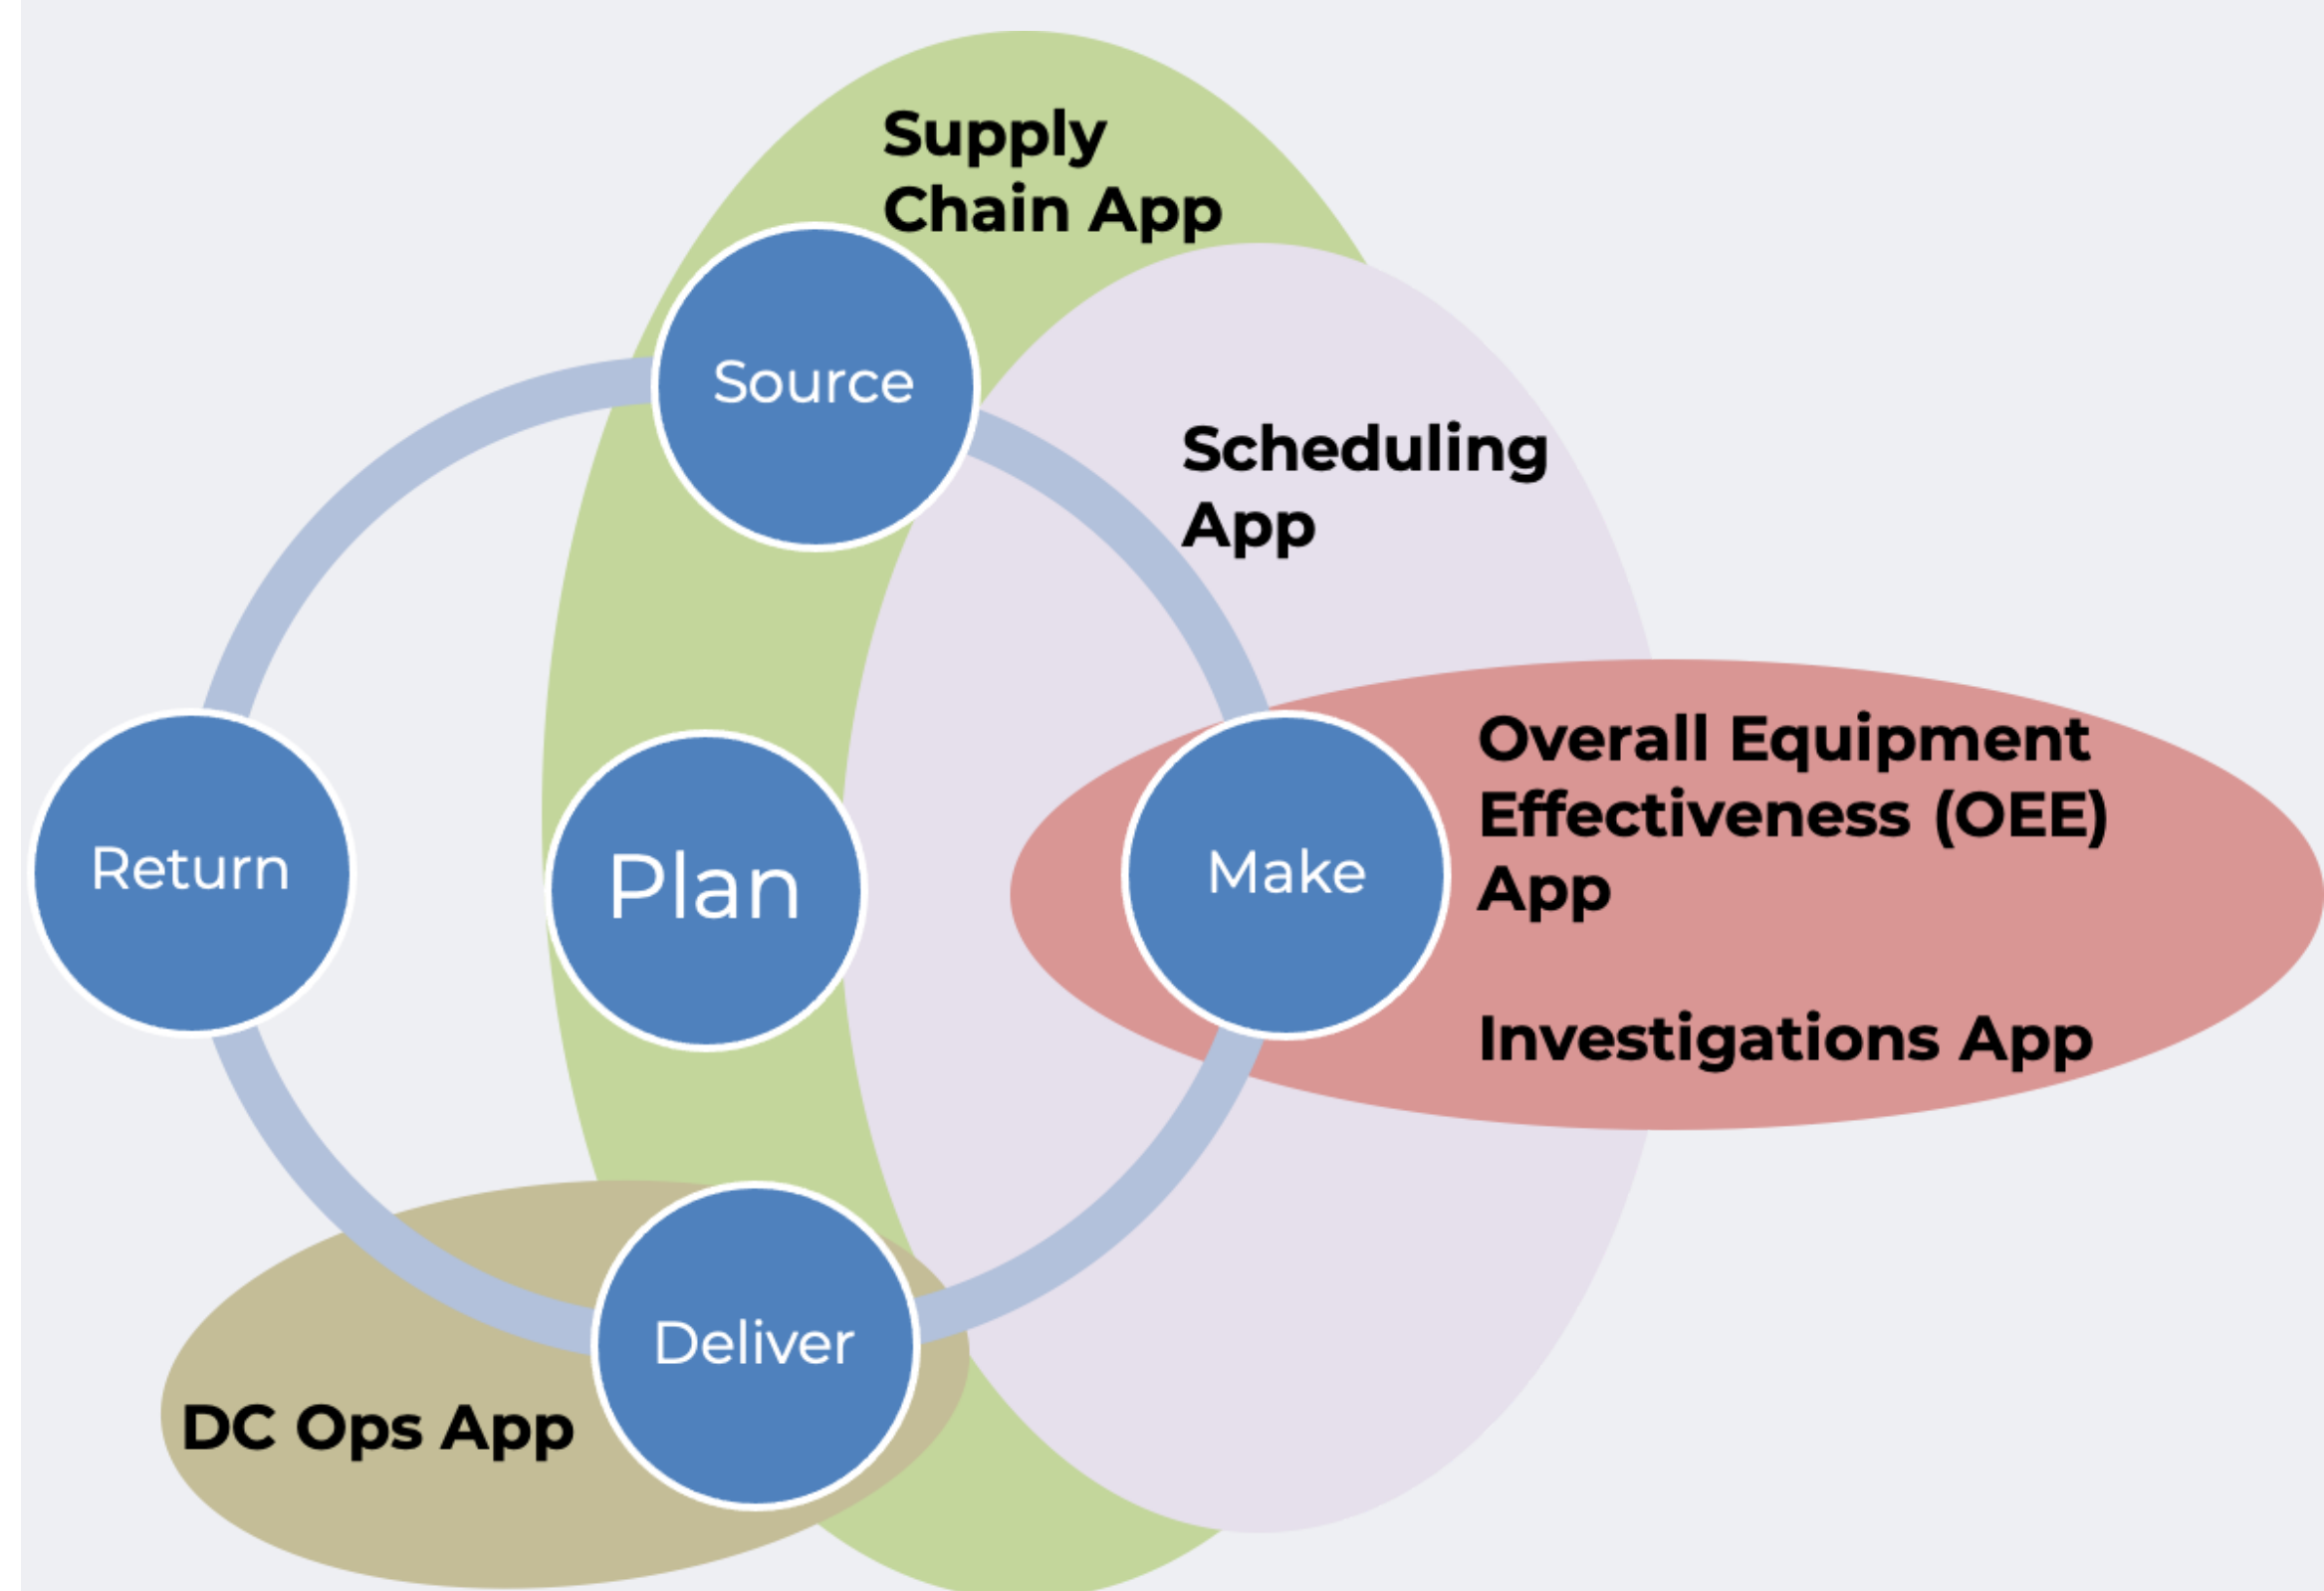

## BUSINESS IMPACT

*Dramatically accelerate your improvement curve and quickly experience **better results** and **lower costs**.*

- Lower variability in Supply Chain
- Lower inventory levels
- Higher productivity
- Constant alignment on priorities
- Quick implementation time

☑ **We guarantee, in writing, that you will recover your small investment in the first year, and that software license fees will be covered by tangible cost reductions of at least 4x larger.**

## HOW WE DO IT

*We offer a suite of applications to streamline information exchange across functional groups.*

*Pick and choose the app(s) you'd like to implement based on your needs.*

- All apps deploy automated alert and escalation system to communicate developing issues and accelerate response to performance-impacting events
- Minimal resources required to implement from client's end
- Connect and integrate data from all available resources (MES, ERPs, QMS, LIMS, spreadsheets, etc.)

**Implementation takes 2-3 months and costs are around $100,000 per application.**
