

VIDEO-ENABLED REMOTE AUDITS

WHAT WE DO

We help clients conduct effective remote audits and improve productivity.

HOW WE DO IT

Our 360° camera and video technology enables companies to effectively and efficiently conduct remote audits.

- Simple and easy to use
- Detailed and close-up view of rooms, documents, labels or placards seen during the tour
- Safe and secure system

In addition to our technology, we can supplement your audit team with experienced consultants.

BENEFITS OF VIDEO-ENABLED REMOTE AUDITS

Enable cost effective multi-functional team participation and collaboration.

- Allows participation from every functional group with no travel expenses
- Leverage perspective from multi-functional participants (QA, Scientists, Engineering, etc.)
- Conduct a thorough evaluation in real-time with complete control over the entire audit experience enabled by 360° view of site
- Audit from any location with a strong WiFi signal

HOW IT WORKS
